

Delivering an **integrated**
suite of **energy, freight,**
and **logistics** services

SEMI ENERGY FZCO

A **Structured & Complete End-To-End** Implementation Process

Semi Energy FZCO is a full-service energy company based in Middle East and Africa. Semi specialises in to large-scale power plant projects around the globe.

We offer a comprehensive range of turnkey energy development solutions, with an aim to bring stable and sustainable electricity to even the most inaccessible places. We design, build, supply, commission, and manage industrial-scale power generation facilities including natural gas, renewable energy and diesel.

We transport and install industrial-grade energy equipment, including large turbines, generators, reactors, compressors, transformers, switchgears, and other essential components required by utility companies and power stations to build and operate energy systems and facilities.

Our company provides a structured and complete end-to-end implementation process to efficiently execute all

phases required in building power plants, including the following stages: engineering, procurement, and construction (EPC), operations and maintenance (O&M), and power plant decommissioning.

Our People

SEMI is composed of a multinational team of industry-leading experts and professionals, who all work together with the common goal of improving the lives of people worldwide by giving them reliable access to energy-efficient power sources.

In every project we take on, our team ensures to adapt our solutions and implement a tailored strategy to meet the specific requirements of a client, particularly in the areas of financial

resources, timetable of deliverables, project scope, and manpower.

This highly specialised approach allows us to create and realise feasible and long-term strategies for building energy infrastructure projects, which can be seamlessly deployed, scaled, or merged with existing utilities and power generation facilities.

Our Presence

We harness an international network of contractors and suppliers to deliver innovative energy equipment and technology, along with cost-effective services, to clients in different sectors. Through our international reach and unparalleled expertise, we help power households and communities. Ultimately, we envision a world where every family can benefit from a steady and environmentally-sound power source.

Our Services

- Energy Equipment & Logistics.
- Freight & Logistics.
- Energy Design Solutions.
- Bridge Power.
- Engineering, Procurement & Construction.
- Operation & Maintenance.
- Energy Consultancy.

Core Ethics & Values Of SEMI Energy FZCO

At SEMI, we are committed to strengthening our leadership in the global energy market by following the guiding principles of excellence, honesty, and innovation. We uphold these core values to ensure we deliver consistent unparalleled services and results in each and every project we take on.

Respect

As an international company, SEMI values and respects diversity in and outside the workplace. We proactively cultivate a culture of respect within our organisation, and we extend it to all our clients, partners, and third-party suppliers.

Integrity

We hold ourselves to a high standard of honesty and reliability, which is evident in every partnership we build. We work hard to ensure we fulfil our commitments within mutually agreed timeframes and resources. Our company goes the extra mile to make sure all our services meet stringent industry standards and comply with the highest ethical and moral standards.

Holistic Responsibility

Our company believes we have a responsibility towards our clients, shareholders, people, communities, and the environment. In every aspect of our service, we strive to carry out these responsibilities while providing long-term solutions that are beneficial for all involved.

Workplace Safety

We believe that our main asset and competitive edge in the industry is our own people. As such, we utilise our resources to equip our people with the knowledge and tools that will help them perform to the best of their abilities. As part of this, we make sure to provide our people with a safe and secure work environment where they can excel in their field of expertise. We conduct regular safety drills and hold company-wide seminars to ensure our personnel are well-prepared for any scenario.

Customer Protection

SEMI is a company that implements strict communication and documentation policies to protect sensitive information and confidential data, in order to safeguard the interests of our clients, our shareholders, our partners, and our people. We do not release any information, sensitive or otherwise, without the proper legal authorisation and paperwork.

Fair and Honest Competition

We support a fair and honest market as we believe this can help stimulate further growth and innovation in the industry.

On our part, we promote honesty in all our corporate dealings and business agreements. Our aim is to foster the development of new technologies, processes, and ideas through honest means, and position ourselves as an honest and reliable company, partner, and service provider.

Transparent Record Keeping Practices

Transparent record keeping is essential in any professional partnership. This ensures that resources are being allocated towards the benefit and fulfilment of the business agreement. At SEMI, we make sure to accurately record transactions and dealings for future reference and review. Furthermore, this information is protected by comprehensive security procedures to guarantee privacy.

Protection of Privacy and Confidential Information

We go to great lengths to protect the privacy and confidentiality of our internal processes and proprietary information. We spare no resource or action in ensuring that corporate trade secrets and business information do not get into the wrong hands. We invest in state-of-the-art security systems which we continue to strengthen to ensure our organisation is protected against data breaches on all fronts.
